2. PREPARATION OF INSTITUTION DEVELOPMENT PLAN

Institutional Development Plan

SWR Government Degree College for Girls, Kanchikacherla, A.P.

1. Introduction

SWR Government Degree College for Girls, Kanchikacherla, was established with a mission to provide quality higher education to young women, especially those from marginalized and economically disadvantaged communities. Despite the potential of our students and staff, the institution currently operates without permanent buildings, limiting our ability to offer a conducive academic environment. This Institutional Development Plan outlines our strategy to build infrastructure, enhance academic resources, and support holistic student development.

2. Vision and Mission

Vision: To empower women through inclusive, value-based, and quality education.

Mission:

- To provide accessible and affordable higher education.
- To promote women's empowerment and leadership.
- To nurture holistic development through academic, cultural, and moral growth.

3. Goals and Objectives

- To establish modern classrooms, laboratories, library, and ICT facilities.
- To enhance teaching-learning practices through digital and smart classroom setups.
- To improve access to higher education for rural and economically backward women.
- To promote student welfare and support services.

4. Proposed Infrastructure Development Plan

- Science and Computer Laboratories.
- Central Library and Reading Room.
- Administrative Block.

5. Budget and Funding Requirements

- Collegiate Education Grants
- Government grants (RUSA, UGC, State Government)
- Alumni and public donation
- College planning Development committee (CPDC)

6. SWOC Analysis

Strengths:

- Fully residential and safe learning environment
- Qualified and dedicated teaching staff
- Government support through Collegiate Education

Weaknesses:

- Limited exposure to higher education pathways
- Insufficient lab and digital infrastructure

Opportunities:

- Collaborations with Ficci flo -vijayawada Chapter
- Introduction of career-focused programs and bridge courses

Challenges:

- Bridging digital divide for rural students
- Sustaining long-term funding for special projects

7. Strategic Institutional Goals with Action Plan

Goal	Action Plan	Timeline
Improve academic outcomes	Weekly monitoring, remedial classes	Ongoing
Enhance digital literacy	Smart classroom implementation	1 Year
Promote holistic development	Yoga, sports, life skills, and leadership programs	6 Months
Capacity building of staff	Regular training programs	Quarterly
Career readiness	Conduct career counseling, entrance coaching	Start from Class 11

6. Conclusion

This Institutional Development Plan is a step towards empowering educational institution for the rural girl students of Andhra Pradesh. With adequate support and funding, SWR Government Degree College for Girls, Kanchikacherla, aims to become a model institution for women's education in the region.

**THE VARIOUS ASPECTS OF MIGRATION IN
THE SELECTED WORKS OF ANITA DESAI
AND KIRAN DESAI**

Dr. Y. Sumithra,
Lecture in English
SWR GDC(G), Kanchikacharla, A. P.

ABSTRACT

This paper deals with the various aspects of migration in the selected works of women writers with reference to the novels of Anita Desai and Kiran Desai. While Anita Desai's novels reflect the social reality, Kiran's novels manages to explore every contemporary international issue. Anita Desai is the one novelist who concentrates more on the exploration of modern Indian society and sensibility. She observes the realities from a psychological perspective. Truthfulness is its motto, realism is its animating principle.

Anita Desai's major themes are human relationships, alienation, migration, loneliness, lack of communication, East West Encounter, violence and death. Her novels unfold the inner realities and psychic reverberations of her characters and tell the traumatic tales of humiliated human relationships. The novels are certainly reflective of social realities. She is keen on projecting the social world.

Being the daughter of representative of Indian novelist, Kiran Desai has won the booker prize, where her mother could not succeed though Anita Desai's novel was listed thrice. Kiran walked on the foot steps of her mother. She continued along the contours marked by her mother's experience and the way of writing. The aim of the social realities depicted in the novels of Anita Desai and Kiran Desai.

"It is clear to those of us who have read Anita Desai that Kiran has learned from her mother's work." Both write not just about India but about Indian communities in the world. The remarkable thing about Kiran is that she is aware of Anglo-Indian inheritance but she does something pioneering contemporary issues. While her mother is interested in exploring the social realities, she is more interested in the social upheavals. Both writers present the impact of migration in their married life.

Key words:

consciousness, feminist, migration, protagonist, reference, sensibility

India is a country that is home to one of the most linguistically diverse communities on the planet with many languages and hundreds of dialects and evolved in various cultures. The literatures from this country include languages that have evolved, changed and have been passed down through generations; and translated to English and other tongues, so that the wider global audience can enjoy and study a vast array of texts, each with its own rich history. Diasporic Indian Women writers examine what migration resulted in. Particular self-expressions and externalizations are sometimes careful choices that each character makes to deal with the consequences and situations they are in, in the context of the place that they live. This causes them to respond to and engage differently with the world around them. Further, these texts are significant in that they primarily feature is deals with the women characters who are all connected by their culturally-circumscribed gender roles. They each face a unique set of challenges as women in their respective societies. They demonstrate their agency differently, they are all bound by their amorphousness, mobility and common experiences of handling the day-to-day obstacles and spectral violence inflicted by their historical and

Computational Biology: A Survey On Current Trends And Future Scope

Abstract: Computational biology is a rapidly progressing interdisciplinary field that applies computational techniques and algorithms to understand biological processes at a molecular, cellular, and systems level. It combines biology, computer science, mathematics, and statistics to analyse vast biological data sets and simulate complex biological manifestations. This survey provides a comprehensive overview of the current state of computational biology, covering key methodologies, applications, challenges, and future directions. We study areas such as genomics, systems biology, and drug discovery, and highlight emerging trends such as artificial intelligence (AI) and machine learning (ML) in biological research. This study concludes with a discussion of the future scope of computational biology in addressing global health, environmental, and agricultural challenges.

Index terms-Machine Learning, Artificial Intelligence, Biology

1. Introduction

The advent of high-throughput technologies, such as next-generation sequencing (NGS), has generated massive amounts of biological data. This data deluge has necessitated the development of sophisticated computational tools to manage, analyse, and interpret the information. Computational biology, a discipline at the interface of biology and computer science, has emerged as a key player in modern biological research, enabling discoveries in genomics, systems biology, and personalized medicine [1]. As biological data continues to grow, the importance of computational biology is poised to increase, with far-reaching implications for healthcare, agriculture, and environmental conservation.

3.Feedback on Facilities

SWR GOVERNMENT DEGREE COLLEGE FOR GIRLS, KANCHIKACHERLA
Feedback on Facilities – Analysis & Action Taken Report
Academic Year: 2024-25

I. Feedback Collection Mechanism

Feedback from students, faculty, and stakeholders regarding the infrastructural and academic facilities was collected through:

- Structured Google forms
- Suggestion/complaint boxes
- Feedback during meetings (class representatives, parent-teacher meet, alumni)
- Direct verbal feedback to faculty and staff

II. Analysis of Feedback on Facilities

Facility	Feedback Received	Action Taken / Proposed
Classrooms	Need for more spacious and ventilated classrooms	Proposal submitted to Commissioner of Collegiate Education for new building infrastructure
Drinking Water Facility	Students requested water purifiers and regular maintenance	Water purifiers serviced; Proposal submitted for additional RO units
Toilets & Sanitation	Required frequent cleaning and sufficient water supply	Appointed dedicated sanitation staff; Monitored through regular inspection
Library	Students requested more reference books and competitive exam materials	New books procured under UGC & RUSA grants
ICT Facilities	Need for more smart boards and internet access in classrooms	One smart classroom established; Proposal sent for additional ICT tools
Laboratories	Science students requested upgraded equipment	Lab equipment partially upgraded; More funds requested from CCE
Wi-Fi Connectivity	Needed better internet access for students	Wi-Fi routers upgraded in library and corridors
Canteen Facility	Requested by students for hygienic snacks and beverages	Private vendor consulted; temporary shed planned for canteen facility

III. General Observations

- Students appreciate the dedication of faculty despite infrastructural limitations.
- Students expect more career guidance and placement-related infrastructure.
- The lack of a permanent college building is a major concern.

IV. Summary & Future Plan

The college is operating under infrastructural constraints but is committed to improving facilities. Steps have been initiated to upgrade essential amenities. Efforts are ongoing to secure government funding and community support for constructing a permanent college building.
